BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.Pursuant to a congressional request, GAO examined allegations regarding the National Science Foundations (NSF) U. S. Antarctic Program, specifically alleged: (1) improper disposal of usable equipment and property; (2) illegal equipment use by a foreign country; and (3) inappropriate equipment purchases within the program. GAO found that: (1) neither the individual making the allegations nor NSF officials denying them could provide documentation to support their positions; (2) a 1983 NSF internal report and a 1987 Navy report identified internal control weaknesses, such as inadequate inventory control, an outdated operating manual, inadequate storage facilities, illegal disposal of equipment, and unaccounted-for capitalized property, that could make the program susceptible to the alleged wasteful practices; (3) NSF took actions to correct the identified problems, but did not plan to conduct further reviews, citing its need to review other NSF programs and its limited staff; and (4) NSF based its contractor award fee on its annual evaluation of the contractors performance. This item ships from La Vergne,TN. Paperback.
