Burnt out and looking for a change, she heads downstate to view property coming up for auction that just might prove to be the perfect place for her own private lab. When Regan and Adam cross paths, the valuable information he guards will put Regan in harm's way. Within minutes of their encounter, Regan recognizes that Adam is different. He flicks his fingers in front of his face and has difficulty making eye contact. Then he tells her his secret: someone is after his research work.
