Brand New Book ***** Print on Demand *****.The Nelson and Eldorado Canyon areas were home to ancient Puebloan, Paiutes and Mojave Indians who lived in peace there for hundred of years. In 1775, Spaniards arrived looking for gold. They settled at the mouth of the Colorado River and called it Eldorado. However, they missed the rich gold veins beneath the canyon s flanks, and found silver and there was not enough silver to make mining worthwhile, and so they left. By 1861 miners discovered the Salvage Vein about five miles up from the Colorado River, a rich, vertically stacked ribbon of gold running through a steep ridge along one side of the canyon. There was virtually no law in Eldorado Canyon, and the Techatticup Mine was in the middle of it all! Now owned by a family whose five sons have cleared tunnels through the mine and have found and uncovered even more of its history, this is the place to be and see American history and how a part of it was formed. So take a tour through the pages of this book with...
