SAGE Publications Inc. Paperback. Book Condition: new. BRAND NEW, Cases in Intelligence Analysis: Structured Analytic Techniques in Action, Sarah Miller Beebe, Randolph H. Pherson, Accomplished instructors and intelligence practitioners Beebe and Pherson have created a set of twelve robust, class-tested cases on events in foreign intelligence, counterintelligence, terrorism, homeland security, law enforcement, and decision-making support. The case studies are designed to give analysts-intraining a hands-on opportunity to apply structured analytic techniques to tackle real-life problems. Each case delivers a compelling narrative and a set of step-by-step instructions that make teaching and learning as effective and efficient as possible. Key features: questions at the start of each case challenge the student to think critically and help the students bring the case into focus; carefully crafted narratives provide the right amount of detail to give a realistic sense of the complexity and challenges of the case; recommended readings at the end of each narrative allow room for further research; sections entitled "Structured Analytic Techniques in Action" frame the analytic tasks and provide step-by-step instructions for applying three to five analytic techniques in a series of exercises for each case study; two hundred photos, maps, figures, tables, boxes, and technique templates support analysis and instruction; and a matrix of the cases and techniques used in each cases augment the annotated table of contents and provide students and instructors an all-in-one view of the contents. To make the teaching of the cases as turn-key as possible, Beebe and Pherson have created a case-by-case guide, "Cases in Intelligence Analysis: Instructor's Materials", that is free to all users as a downloadable PDF. "Instructor's Materials" includes solutions to all of the exercises, teaching tips, conclusions for each of the cases, and key takeaways that can be used to guide classroom discussion.
