

Rings, Fields, and Vector Spaces: An Introduction to Abstract Algebra Via Geometric Constructibility

By Bharath Sethuraman

Springer. Hardcover. Book Condition: New. Hardcover. 192 pages. Dimensions: 9.3in. x 6.2in. x 0.7in. Using the proof of the non-trisectability of an arbitrary angle as a final goal, the author develops in an easy conversational style the basics of rings, fields, and vector spaces. Originally developed as a text for an introduction to algebra course for future high-school teachers at California State University, Northridge, the focus of this book is on exposition. It would serve extremely well as a focused, one-semester introduction to abstract algebra. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
